To Whom It May Concern:

Greetings!

I am writing this letter on behalf of **Wangsheng Funeral Parlor** to formally express our interest in using the Boto Mo 'To online e-voting system. This is in line with the upcoming **Funeral Elections** that is scheduled to be held on **September 3, 2025**. Our organization believes that your e-voting system will streamline the process of our election.

Just please let us use the system beng.

I understand that, as part of your system's registration process, verification of our organization's legitimacy is required. Therefore, the following documents were attached together with this letter, to provide details of our organization. These documents include our Organizational By-Laws, authorized signatories, and Certificate of Recognition.

We are eager to partner with the "Boto Mo 'To" team to implement this advanced solution for our electoral needs. We believe that integrating "Boto Mo 'To" will not only enhance the integrity and transparency of our elections but also significantly improve the convenience for our members.

Should there be additional documents/requirements that we need to accomplish in accordance with this request, kindly reach out through:
xtrashemail@gmail.com

We look forward to proceeding with the registration process and discussing the next steps.

Thank you for developing such an innovative system.

Sincerely,

HU TAO
Owner
